

Natural Landscaping Consultants

The following list of natural landscaping experts have agreed to be listed as a resource for participants in the Clean Air Counts Campaign with whom you can contact for technical assistance in establishing a natural landscape in your home, office, or open space.

- Applied Ecological Services, Inc.
Chicago Region
120 West Main Street
West Dundee, Illinois 60118
(847) 844-9385
www.appliedeco.com

Since the 1970s, Applied Ecological Services has provided comprehensive ecological consulting and contracting services to variety of clients including government agencies, architectural firms, parks, and more. Projects include natural landscaping, wetland mitigation, prairie restoration, woodland management, and stream and shoreline stabilization and restoration.

- Christopher B. Burke Engineering, LTD
9575 West Higgins Road, Suite 600
Rosemont, Illinois 60018-4920
(847) 823-0500

Burke Engineering incorporates native plant materials in variety of projects including wetland mitigation, ecosystem restoration, streambank stabilization, recreational land development, and government and commercial landscaping.

- Conservation Design Forum
375 West First Street
Elmhurst, Illinois 60126
(630) 559-2030

The Design Forum has established the Conservation Land Stewardship, a team of experts who retrofit existing and traditional landscapes into native habitats, renewing remnant landscapes, and implementing and maintaining new native landscapes designs.

- Pizzo & Associates, LTD
10729 Pine Road
Leland, Illinois 60531
(815) 495-2300

Pizzo & Associates combine planning, contracting, stewardship, and nurseries to result in environmentally sound landscapes.

- Prairie Sun Consultants
612 Staunton Road
Naperville, Illinois 60565-2607
(630) 983-8404

Prairie Sun installs small natural landscapes using native plants, and offers advise on installation and management of large natural landscapes at schools, nature centers, and corporate campuses.
